1	This is definitely not an easy class to take but it's a lot of fun and interesting once you get the hang of it! Learning how to code games and build them is super fun and it teaches you a lot! If you've never done any of that stuff before it is a little confusing at first but you'll start to get the hang of it as you continue to move on.

Q32 - What advice or comments would you like to share with the instructor of this course?
Faculty: Megan Baker
Response Rate: 100.00% (**1** of **1**)
1	I really enjoyed this course! You have helped me out so much since day one and I couldn't be more thankful! Your patience and kindness have really been a great help throughout the term and I knew I could always come to you if I had a question or if something wasn't working. I came into this class with ZERO experience in coding and building video games but by the end of it I have learned so much stuff! It's definitely not easy but you were one of the best professors I have ever had!
